A good presentation about a code project

Length: 5-minutes, plus 5 minutes of feedback.

1) Introduction and context
   a. What is your project?
   b. Why this project? Why are you passionate about it?
   c. Roughly 30 seconds
2) Demo
   a. Overview how to interact with your experience/app/game
   b. How do you win? How do you lose?
   c. What makes it clear for the user?
   d. If something doesn't work, what is it supposed to do? (don't start with this)
   e. Roughly 2 minutes
3) Code overview
   a. Start with something like 'For making this project, I utilized _____ with my code'.
   b. Find a specific part of the code that you think is interesting, took you some time, or you are particularly proud of.
   c. Tell us how the code executes the program…what's the logic?
   d. Don't focus on all of the code
   e. Roughly 1.5 minutes
4) Closing
   a. What did you learn?
   b. What did you wish you did differently?
   c. What would you do going forward?
   d. Roughly 30-seconds
